Printed on fine heavy paper for framing, or on the same quality of thin paper for inserting in albums. Price, 50c.

# PREFACE.

---

The generous support extended to former numbers of this Catalogue has enabled us to materially increase the size and scope of the present edition. Numerous illustrations have been added, and the list of English and Roman coins made complete ; but while we have been to considerable expense in making these countries perfect, it must not be supposed that we *always* have *all* the coins herein described in stock, but at the same time we use every exertion to keep a full line of all coins always on hand, and never have less than two thousand varieties in stock, including many not noted here, such as fine old European crowns, dating from 1500 to 1700. These we can supply at from \$3.50 to \$10.00 each, according to condition and variety. We also have large numbers of smaller coins of all dates.

Of American coins, we usually have a full stock, and are always prepared to purchase any of the following (other dates we do not want):

DOLLAR. 1794, 1804, 1836, 1838, 1839, 1851, 1852, 1854, 1855.

HALF DOLLARS. 1794, 1796, 1797, 1801, 1802, 1815, 1851, 1852.

QUARTER DOLLARS. 1796, 1823, 1827.

DIMES. 1796, 1797, 1798, 1800, 1801, 1802, 1803, 1804, 1809, 1811, 1822, 1824.

HALF DIMES. 1794, 1795, 1796, 1797, 1800, 1801, 1802, 1803, 1805.

And any colonial silver, paying for them according to condition, and as this, we can *only determine by a personal inspection of the coins themselves, it will be impossible to set a price on any piece without seeing it.* To keep our correspondence within managable limits, we have been forced to make this rule absolute without any deviation whatever.

We shall always be pleased to give our patrons any information they may desire concerning any coins they may possess through the columns of the COIN COLLECTOR'S JOURNAL, if they will send on the coin or a *good* rubbing of it to the editor in our care. Letters of inquiry *must* be written on paper separate from that containing business communications. These rules are designed as much for the benefit of our correspondents as our own convenience, for without strict rules it would be impossible to answer every one of the two hundred letters or more received daily without mistakes or delay, a task which our perfect organization has allowed us to accomplish every twenty-four hours for the last ten years.

Gentlemen desiring to obtain a general knowledge of coins cannot do better than procure "THE COINAGES OF THE WORLD," a work going very fully into the coinages of every country, and amply provided with fine engravings. It will be found advertised on another page.

## AMERICAN & FOREIGN COPPER COINS.

This catalogue gives the selling price of the various series of coins of which it treats, the text being profusely illustrated with engravings of the rarer pieces, to enable the collector to determine their nationality and date of issue. The value of the American coins is given in three degrees of preservation, which will be found a valuable feature of the work.

It will be found of great value to all NEWSDEALERS and STOREKEEPERS, as it gives the fictitious value of all American copper. By its means many small traders have made hundreds of dollars by selling coins taken in their stores, which they would otherwise have passed out in change. Price 25 cents, post free.

## AMERICAN & FOREIGN SILVER COINS.

This handy manual is gotten up in the same style as the Copper coin catalogue, and is illustrated with well-executed engravings, of every American silver coin ever issued, and some of the most interesting foreign ones.

Our remarks concerning the value of the Copper coin catalogue, will apply with still greater force to this, for as the silver coin which has been hoarded up for the last fifteen years, comes again into circulation, many rare and valuable pieces are sure to reward those, who take the time to look at the dates, before paying them away. It must not be thought that it is only the old pieces that are valuable, as, for instance, the publisher will pay \$5.00 for the silver dollar of 1854, and so with other comparatively recent dates.

Price 25 cents, post free. Or the two bound in one volume, with a supplement containing fac-similes, of a number of old Roman and Greek coins. Price 50 cents, post free.

# THE COIN COLLECTOR'S JOURNAL.

SPLENDIDLY ILLUSTRATED.

A 16-PAGE MONTHLY. \$1.00 PER YEAR, POST FREE.

In forwarding to our subscribers THE COIN COLLECTOR'S JOURNAL for January, 1878, at the commencement of the third volume, we would take the opportunity of thanking our patrons for past favors, and urge them to continued exertions to increase the circulation of the Journal. As it is the largest numismatic monthly published in the United States, and as it has now attained a more extensive circulation than any other paper devoted to the interests of coin collectors, we think it is for the interest and advantage of subscribers to do something to increase its influence.

We would remind our friends that by increasing the circulation of the Journal, the number of collectors will doubtless be much increased, and, as the number of coins is limited, the additional demand will greatly enhance the value of all collections.

The publishers have never expected to realize any profit from the subscription list; all that they hope for is to make the C. C. J. a self-sustaining means of communication for coin collectors, and therefore feel justified in looking to those benefited by it to do something to add to its usefulness in the future.

We give annexed a few reasons why every coin collector should become a subscriber:

For prices realized at every **Auction Sale of Coins** in the United States during the last two years—see *The Coin Collector's Journal*.

THE

# COINAGES OF THE WORLD,

ANCIENT AND MODERN.

This work is intended to give correct information on a subject of which no educated person can afford to be ignorant; and yet, till the publication of this volume, it has been impossible to obtain a general knowledge of the *Coinages of the World* without reading through dozens of heavy quartos, at great loss of time, and probably heavy expense.

By the aid of this book, any person can at once determine the nationality of any coin they may possess, and obtain much interesting information concerning the cause which led to its issue. It is well filled with beautifully executed representative coins of every people, age and country, and is the only comprehensive book on the subject ever published. The paper, press-work and binding are all of the very best. No library can be complete without it.

### CRITIQUES.

---

*The New York Times of December 27th, says:*

“What every student of Coinages—not the mere collector of old coins—wants to know.”

*The New York World of November 27th, says:*

“Welcome to all amateur and experienced numismatologists, to whom it will not only convey valuable information, but be useful as a work of reference.”

*The New York Evening Post of November 29th, says:*

“A work of great interest to numismatists and collectors of coins. \* \* \* The text, which is full, is illustrated by several hundred engravings of the principal coins of all ages and countries.”

*The New York Daily Graphic of December 23d, says:*

“Shows a great deal of special study and painstaking research. It is a monograph full of interesting and curious information, and besides its ample learning, gives several hundred engravings of the principal coins. The various appendices to the volume add materially to its convenience and value for reference.”

*The American Journal of Numismatics of January 1st, says:*

“This is an octavo volume of 306 pages, with a large number of wood-cuts of examples of both ancient and modern coins. It has several appendices, giving lists of the French sovereigns, explanations of the abbreviations on Roman coins, a list of Roman families who have issued coins, and other matters of interest. The text is sufficiently elaborate to give the general reader a good idea of the subject, and to excite his interest in the science of numismatics. From the brief examination we have been able to give it, we judge it to be one of the most valuable and compendious books on coins, especially for those collectors who have not the time or inclination to consult the ponderous quartos of the old writers, which has yet appeared.”

*The Coin Collector's Journal of January 1st, says:*

“This is decidedly the most important work on numismatics that has appeared during the past year, and will doubtless be the means of starting many new collections, as it is written in popular style, and occupies a field distinctly its own. The first chapter introduces us to the first coin, and we are gradually led from the coins of the Greek Island of Ægina, to those of Athens, Corinth and Macedonia; from Miletus and Ephesus to Egypt and Judea; from Græcia Magna to Rome, and so down through the Byzantine Empire to Mediæval and modern Europe, including also Asia, Africa and America (the coins of our country and England being very fully described), giving fine engravings of all the principal types of each, till every coin-issuing State or Colony has been noticed; in fact, it is more than a coin book, it is a short history of the world, and should be in every house.”

All the marvelous scenic effects of the modern stage can be successfully imitated, by any boy of ordinary ability, on these miniature stages, by the exercise of a little study and patience. They have been proved of incalculable benefit in developing a boy's talent, in the various faculties called into play. His mechanical invention is brought out in constructing his theatre; his artistic genius is improved in carefully coloring the characters and scenery, and his elocution perfected in reading the speeches of the different actors.

Scott & Co. would caution the public against purchasing worthless imitations, as the Plays of **SELTZ'S AMERICAN BOYS' THEATRE** are the only miniature theatricals ever published, giving full directions for working, &c. Every piece of this admirable series is put together and tested by professionals before being issued to the public, insuring the correct working of every piece.
